

PLACEMENT

The Syracuse University College of Law Placement Office is ready to assist employers in recruiting the most qualified legal personnel. If an employer's location prohibits on-campus interviews, it may maximize the advantage of interviewing while eliminating time-consuming travel by considering the College of Law's alternative near-the-office interview program and placement caravans.

We arrange annual caravans to New York, Philadelphia, and Washington, as well as on-campus interviews, and assist in making other employment arrangements.

For more information concerning caravans and other placement programs contact:

NEW! from Shepard's®

Legal Strategies for Industrial Innovation

Richard A. Givens, Editor

Your corporate legal guide to successfully seizing the initiative.

Specifically written for attorneys and corporate officers, this unique new publication is your guidebook through the maze of all legal issues involved in corporate innovation.

More than just a listing of the law involved, this convenient single volume identifies strategic factors you must weigh . . . points out traps into which the unwary may fall . . . and spells out alternatives from which you may choose.

Legal Strategies for Industrial Innovation is a thoughtfully-written series of eleven discussions, each about one of the legal areas you must consider. It is introduced with an overview by editor Givens, who personally selected eight other authorities to help cover the subjects involved.

These authors make you aware of the opportunities available and how to maximize them . . . the obstacles and how to use them so adroitly that they actually give you a competitive advantage.

For example, you have full guidance about the impact on innovation of . . .

- labor relations, including benefits of employee involvement
- antitrust issues—monopolization, predatory pricing, marketing restrictions, joint research
- patents—including risks of invalidity
- taxes—with innovative planning devices
- securities law—sources and types of financing, sale of a business, and more
- environmental issues—with an in-depth look at all federal environmental regulations affecting innovation
- state and local regulation, taxation and prohibitions affecting innovation
- inside counsel's role in innovation
- plus much more.

1982 edition. Approximately 580 pages. Annual updating planned. One hardbound volume, \$75 plus \$3.40 postage and handling.

Contents
